

Karim's Big Decision

English Mood Academy

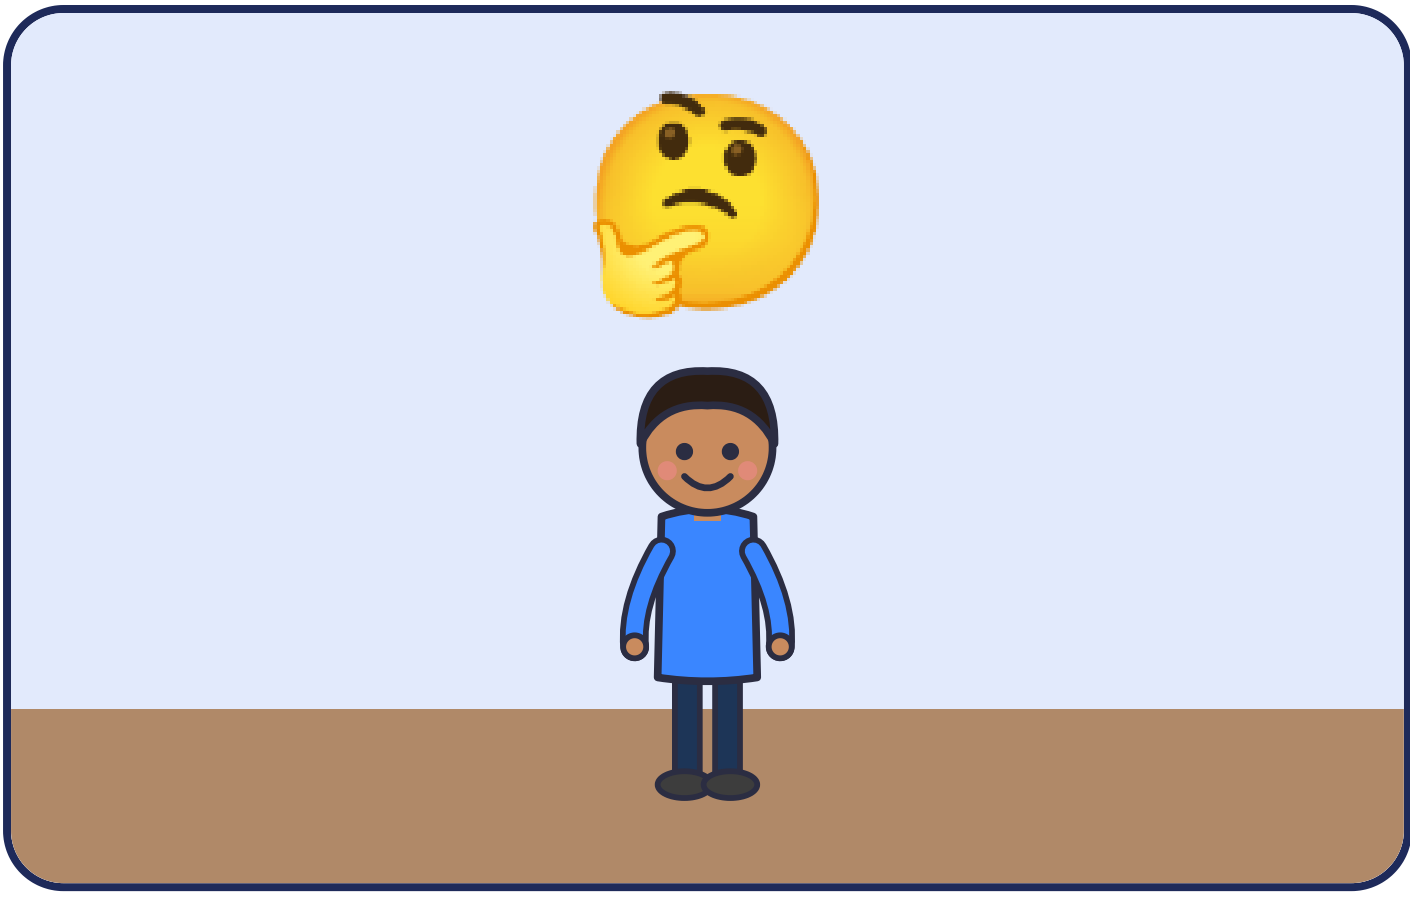

yellow = new words **red** = first conditional / should

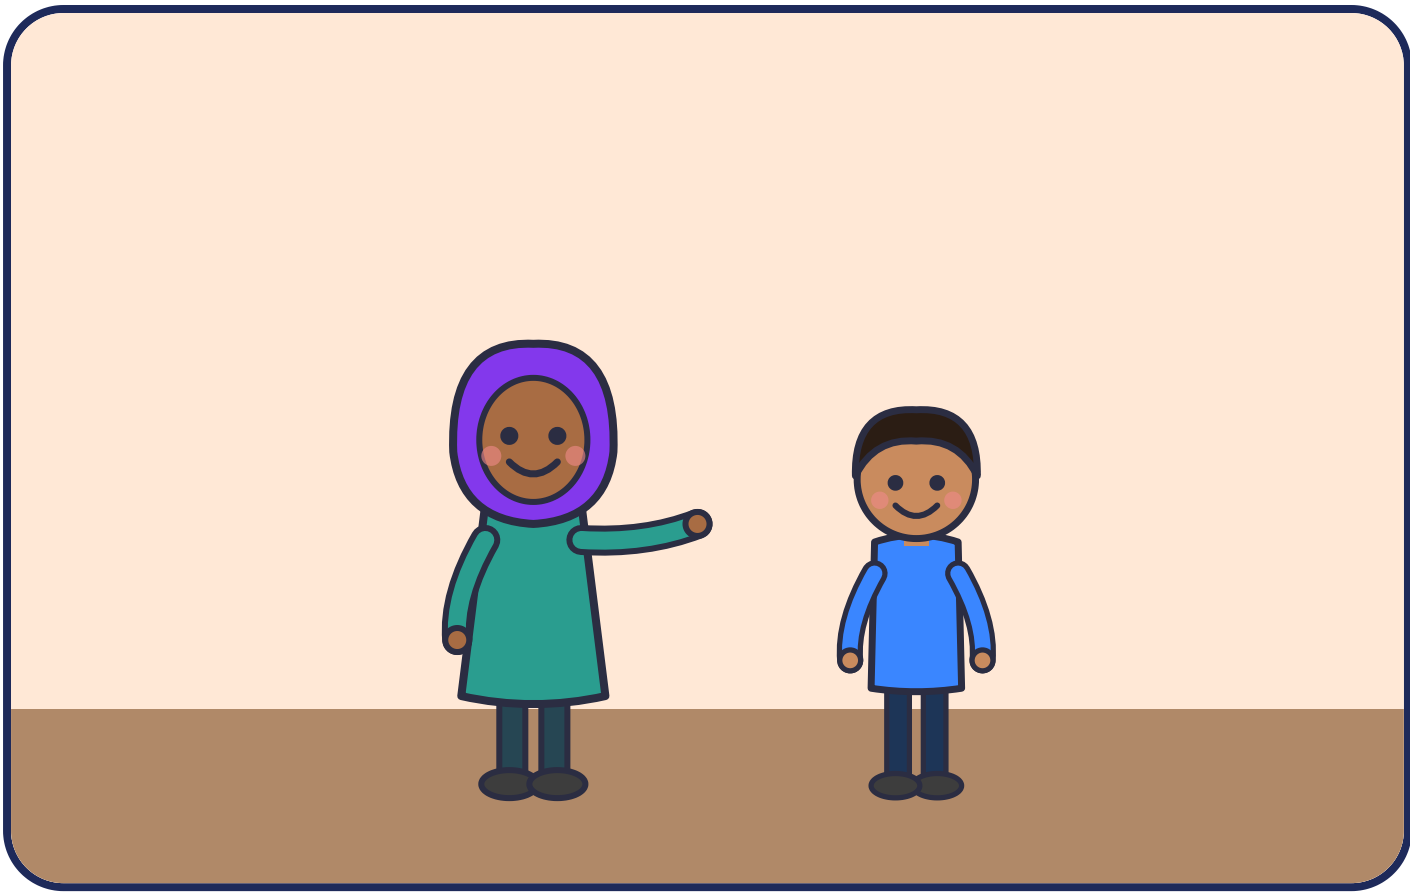

Karim is a **responsible** boy with a big **goal**: to play in the school team. His **coach** says, "**If you train** every day, you **will play** in the final match."

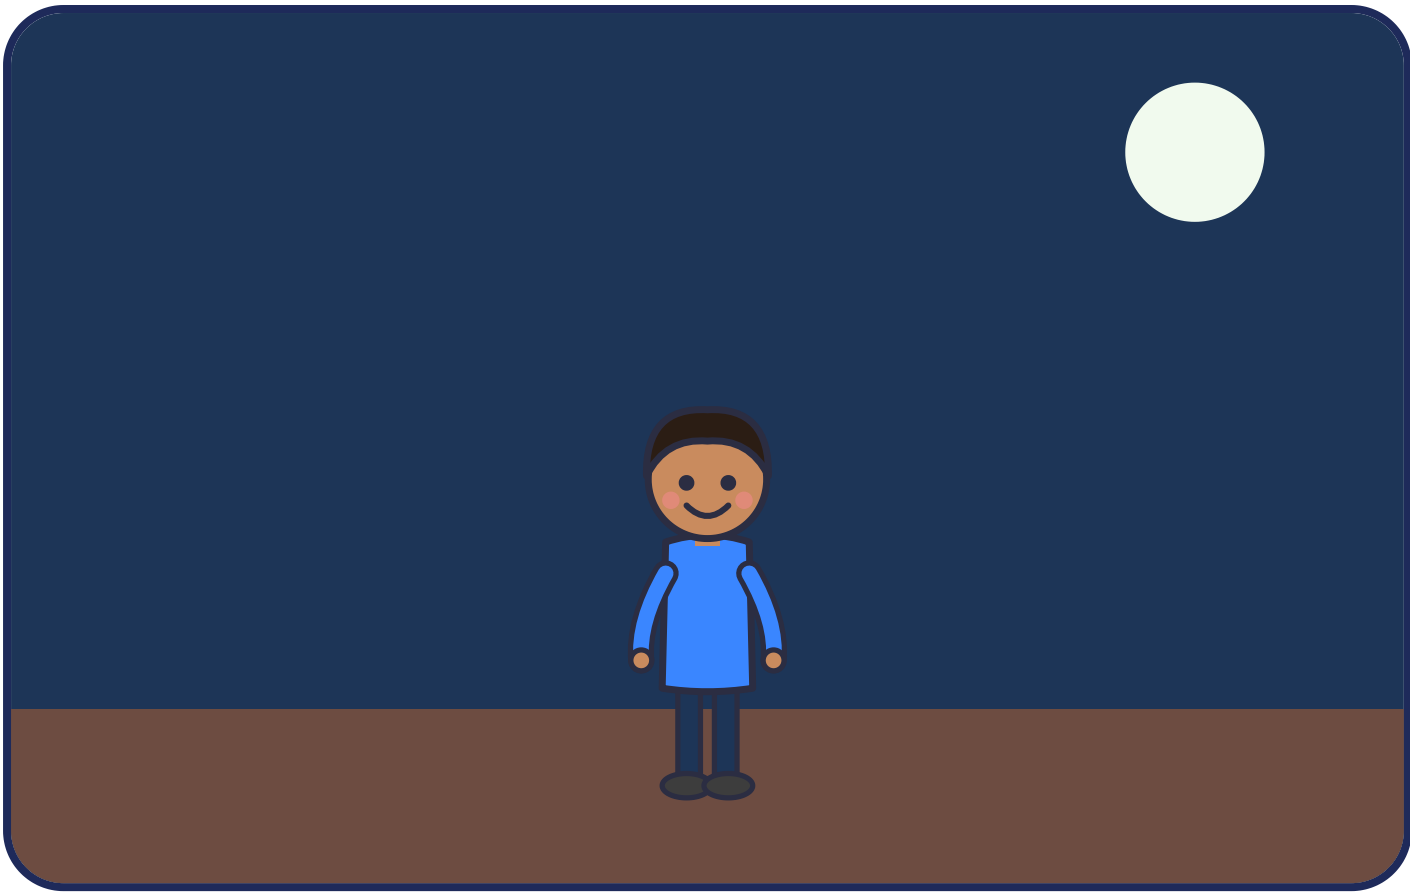

On Thursday, his **close friend** Adam wanted to **invite** him to a birthday party on Friday. But the final match was on Saturday morning.

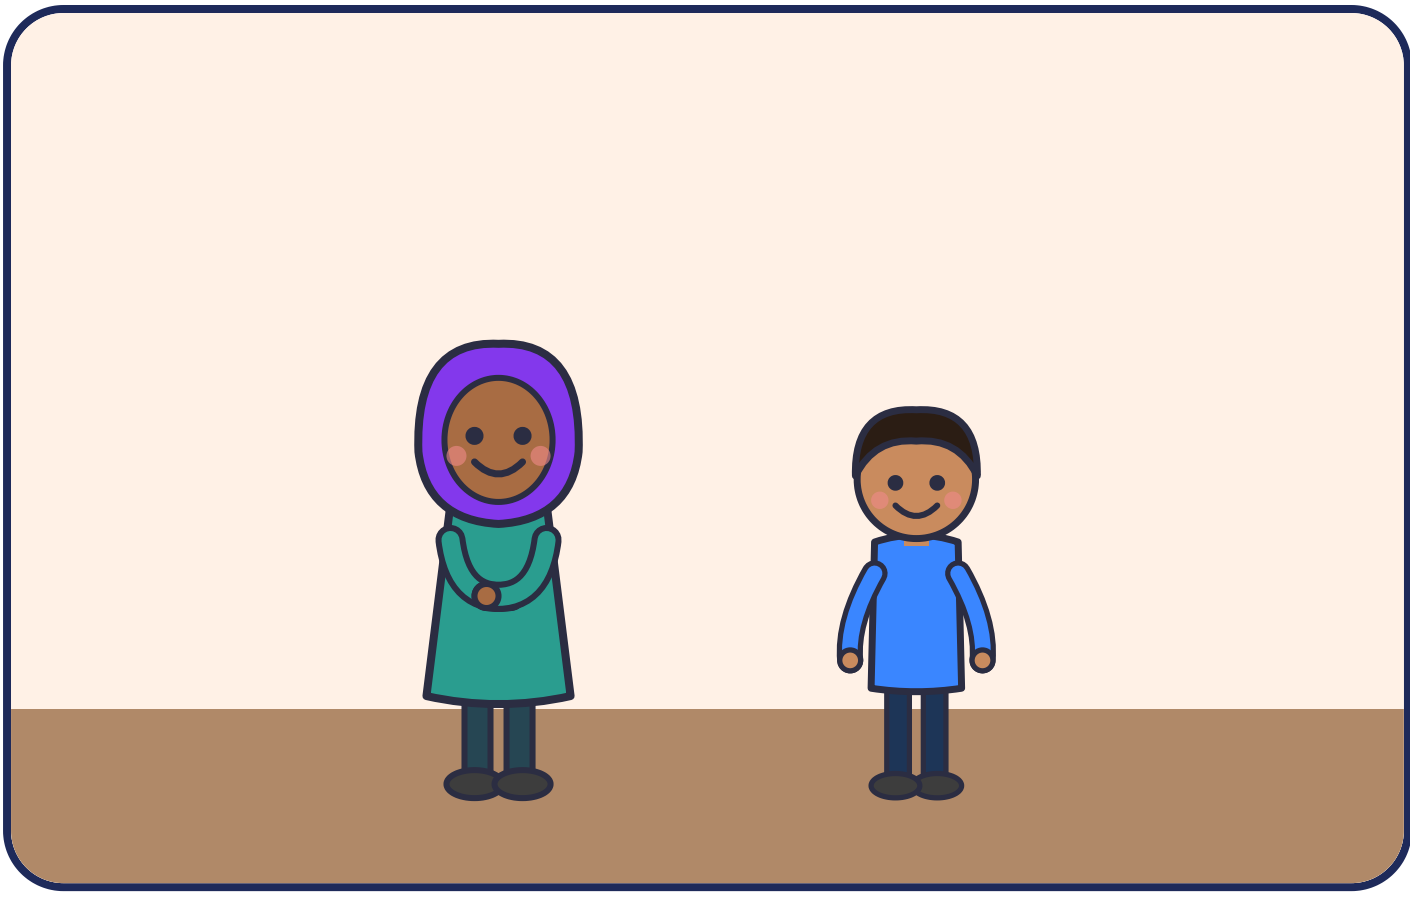

Karim had to make a **decision**. He thought, "**What should I do**? I don't want to **feel left out**, but I have a test, too."

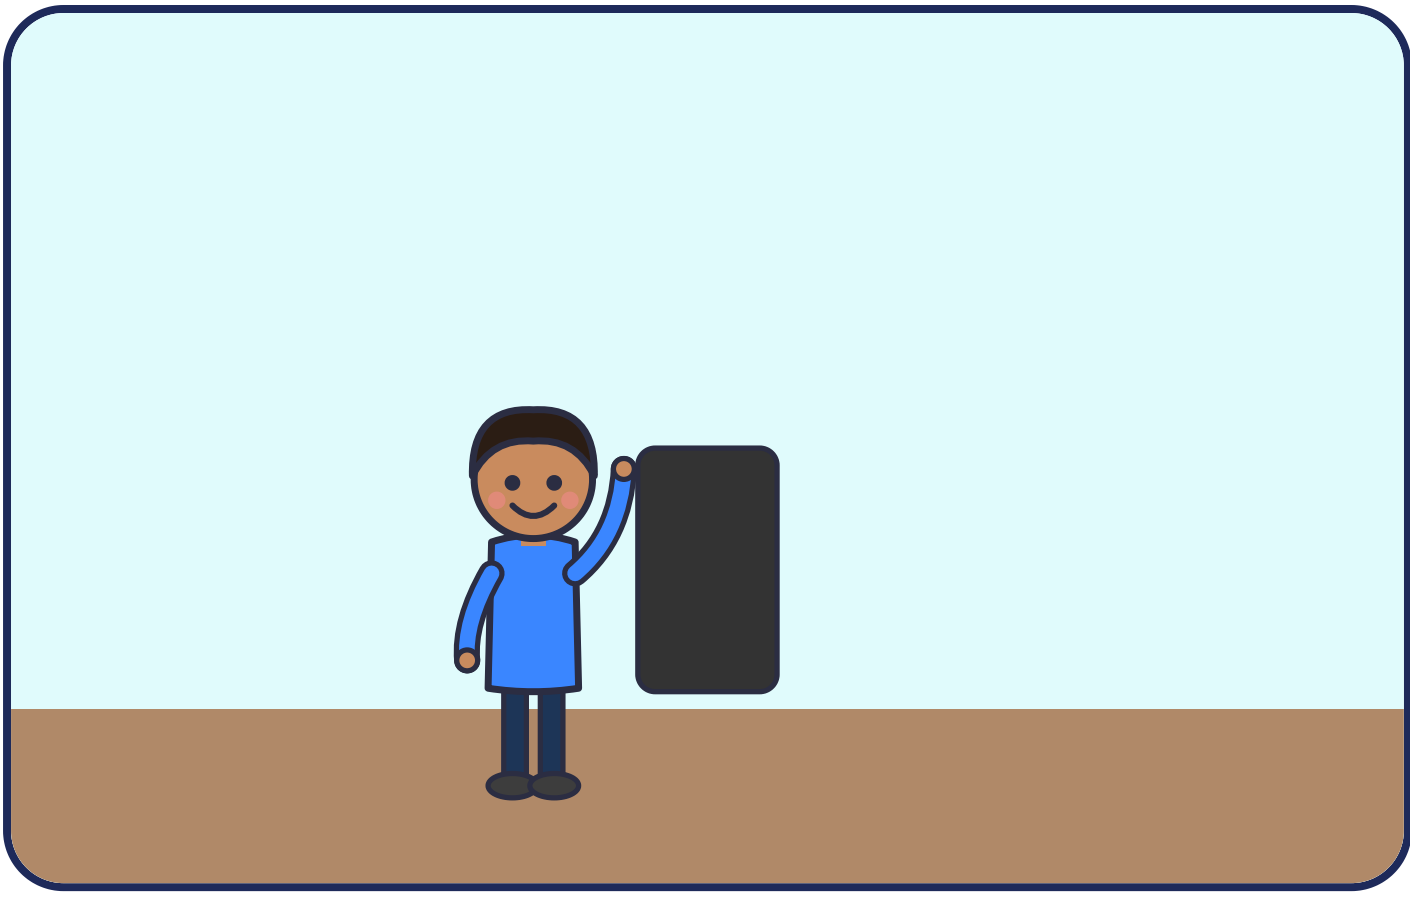

He asked his mom for advice. She smiled and said, "You **should** **evaluate** your **options** first. Think about both **sides**."

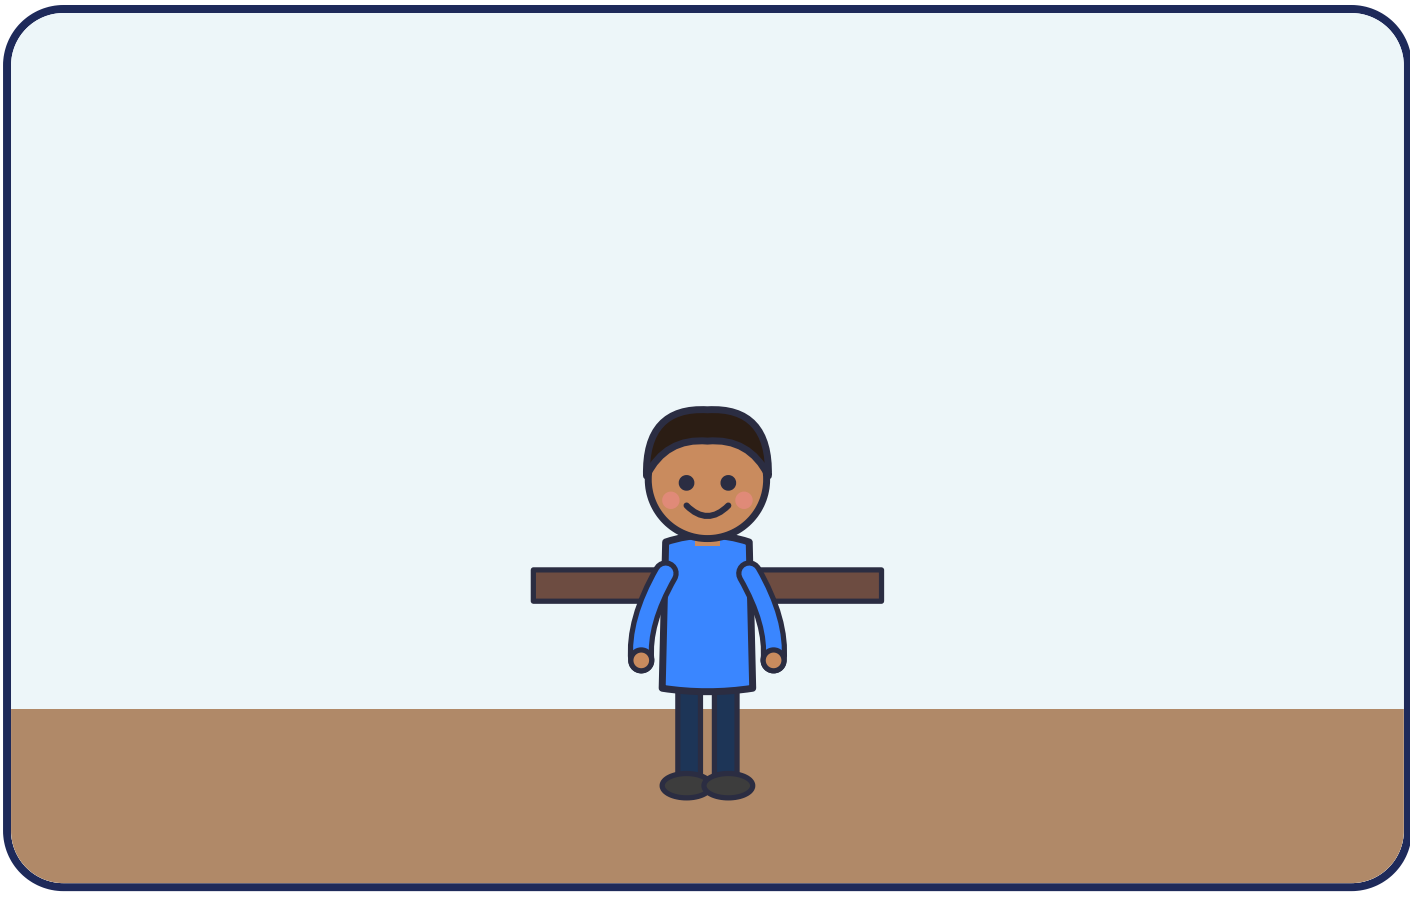

"**If I go** to the party late at night, I **will miss** my sleep," Karim said. "And if I am tired, I **won't feel** strong in the match."

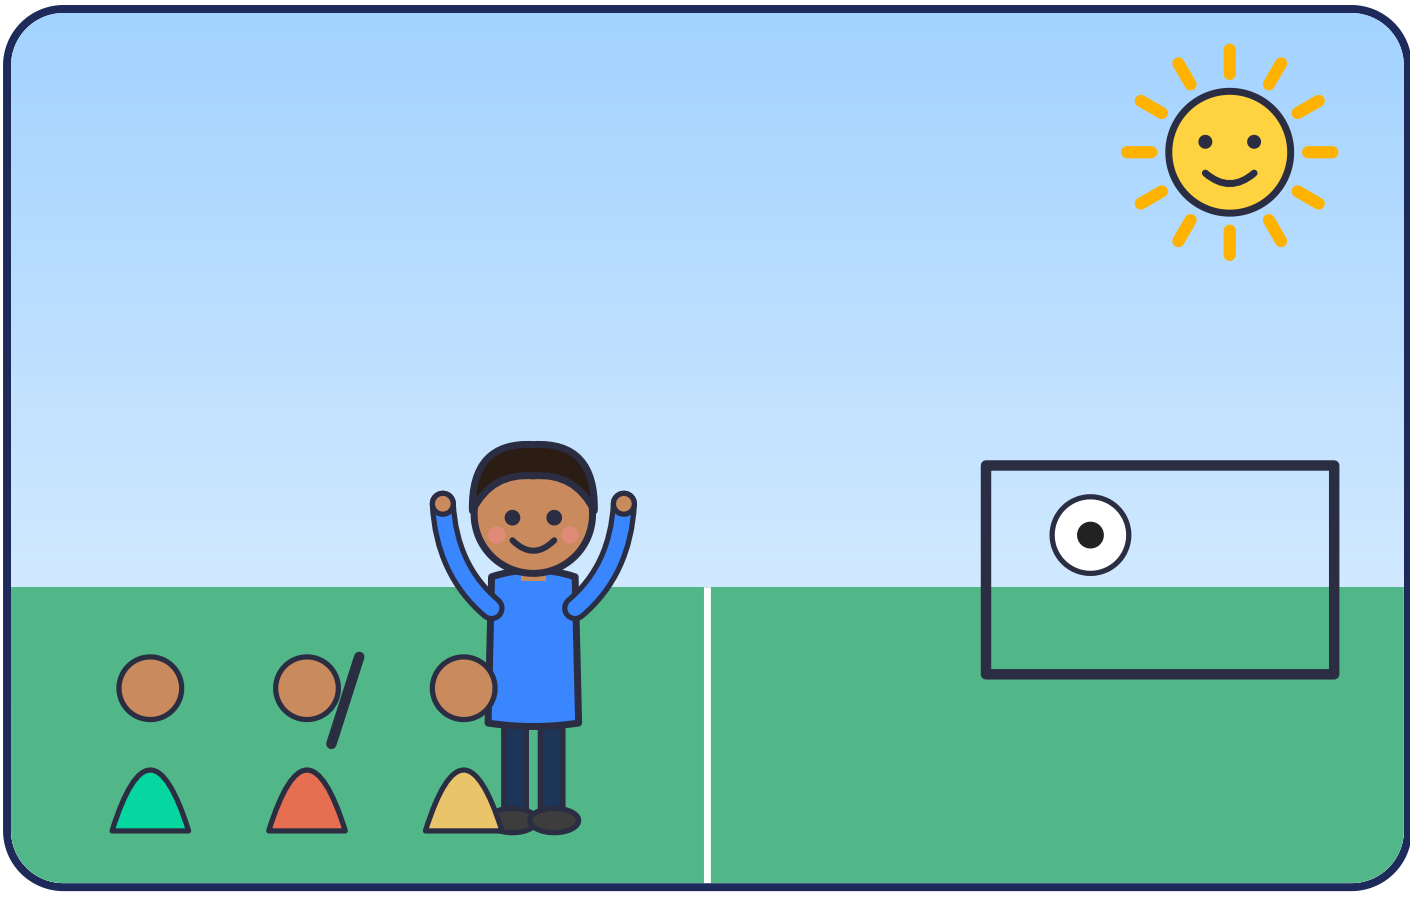

"Right," said Mom. "You **shouldn't** be **careless**. A late night can have **negative** **consequences**, like a bad **injury**."

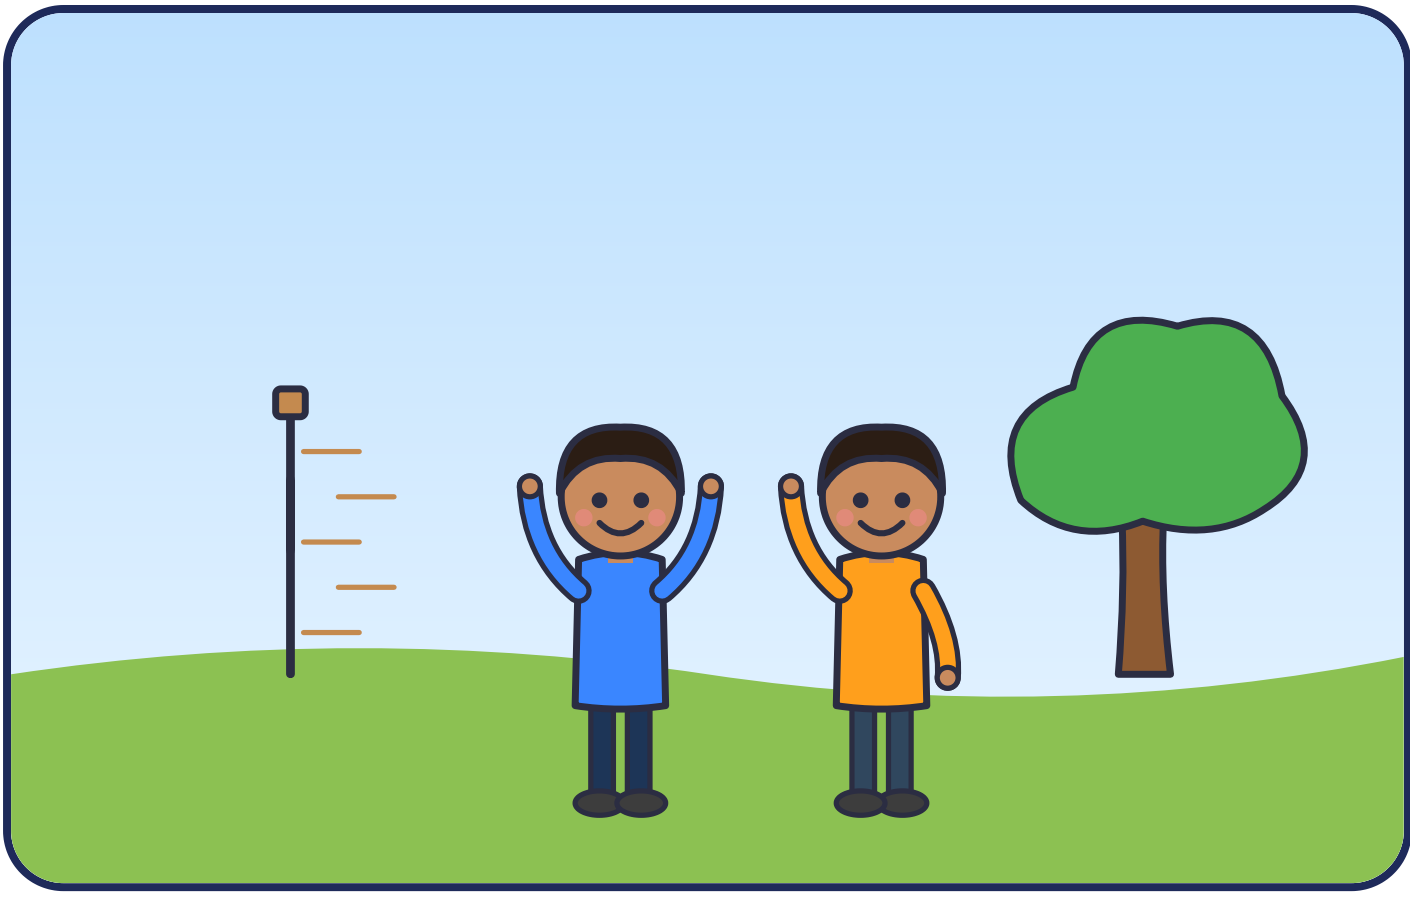

So Karim made a **smart choice**. He called Adam and was **polite**: "I **promise** I'll visit you on Sunday with a present!"

Karim didn't **waste time**. He studied **carefully** and went to bed early. He didn't **skip** dinner, and he **avoided** **harmful** junk food.

In the match, Karim played very well and his team won! The coach said, "**If you don't train**, you can't win. You know how to **behave** like a star."

On Sunday, Karim visited Adam. They planned a **school trip** together. Karim learned that every **choice** has an **effect**, and a **positive** choice will **benefit** you. Good choices help you **reach goals**!
