

Nour and the Sunny School

English Mood Academy

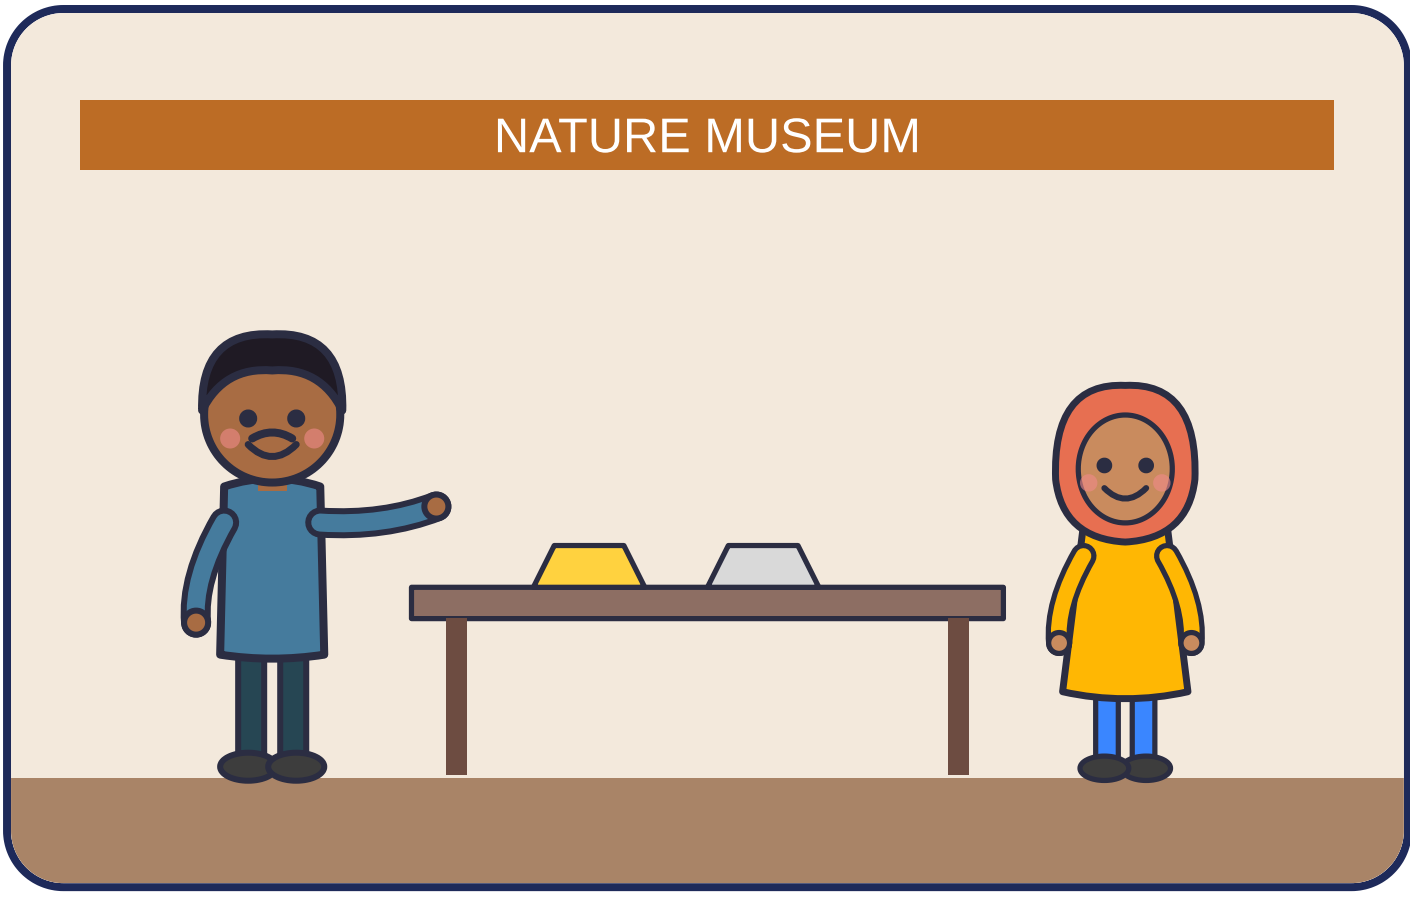

yellow = new words **red** = Past Simple verbs

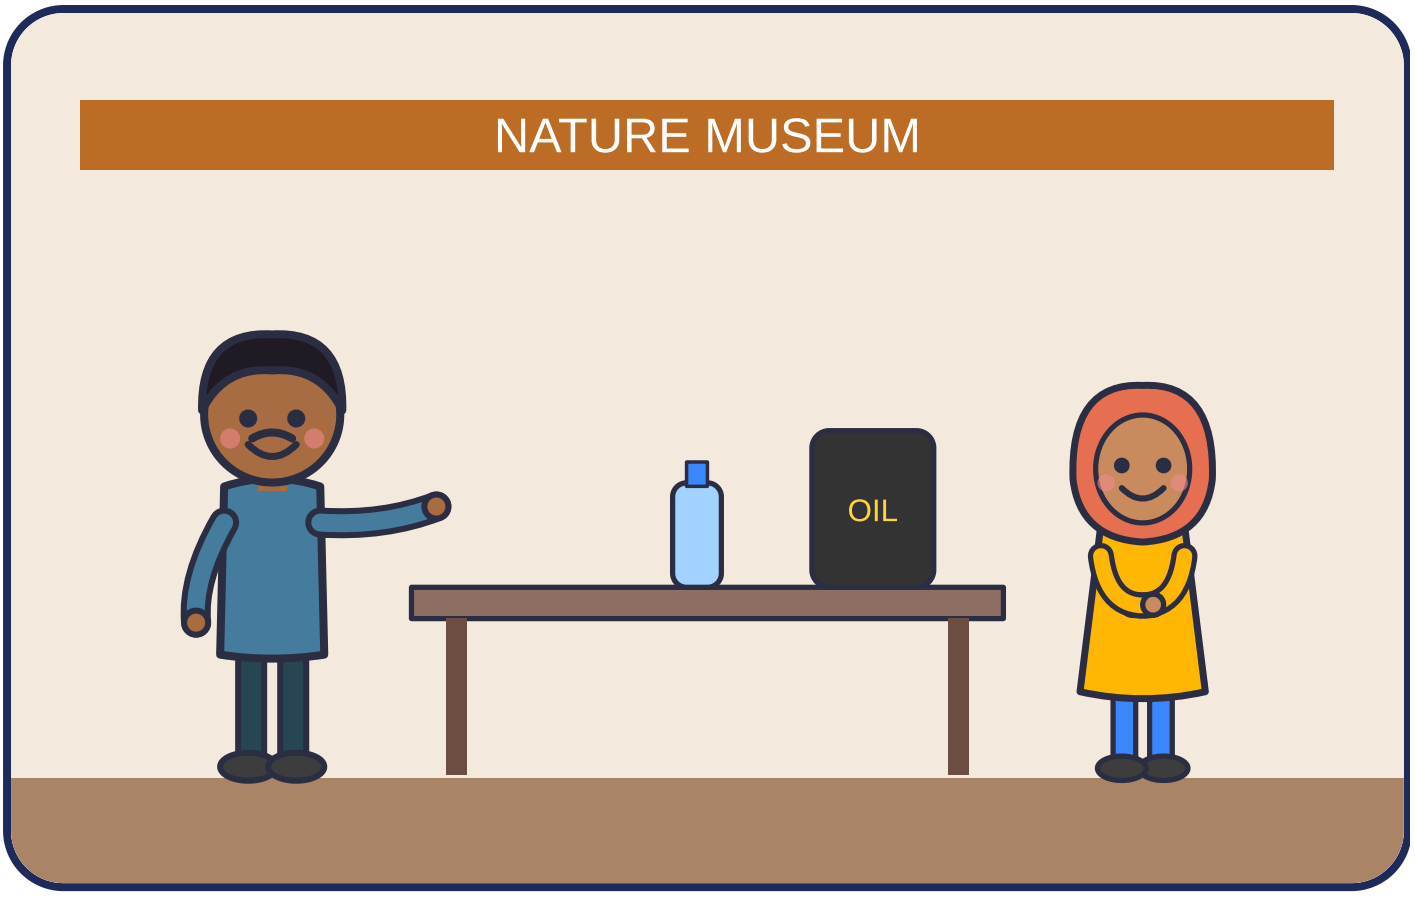

Last week, Nour's class **visited** a museum about **nature**. Their teacher, Mr. Adel, **showed** them a box of **natural resources**.

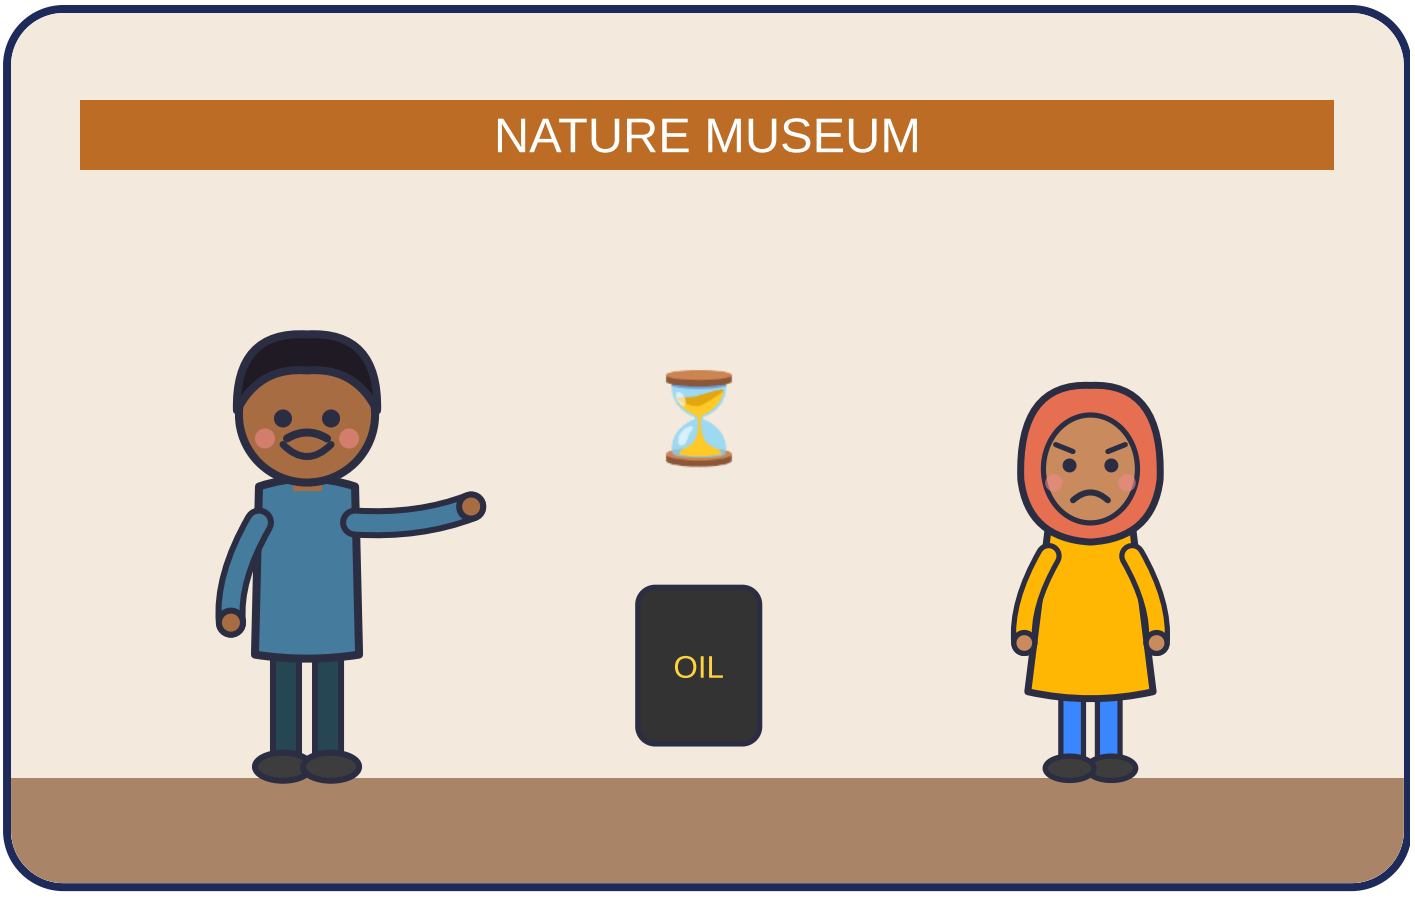

Nour **saw** **wood**, **stone**, a **rock** and some **soil**. "We get all these **materials** from **nature**," Mr. Adel **said**.

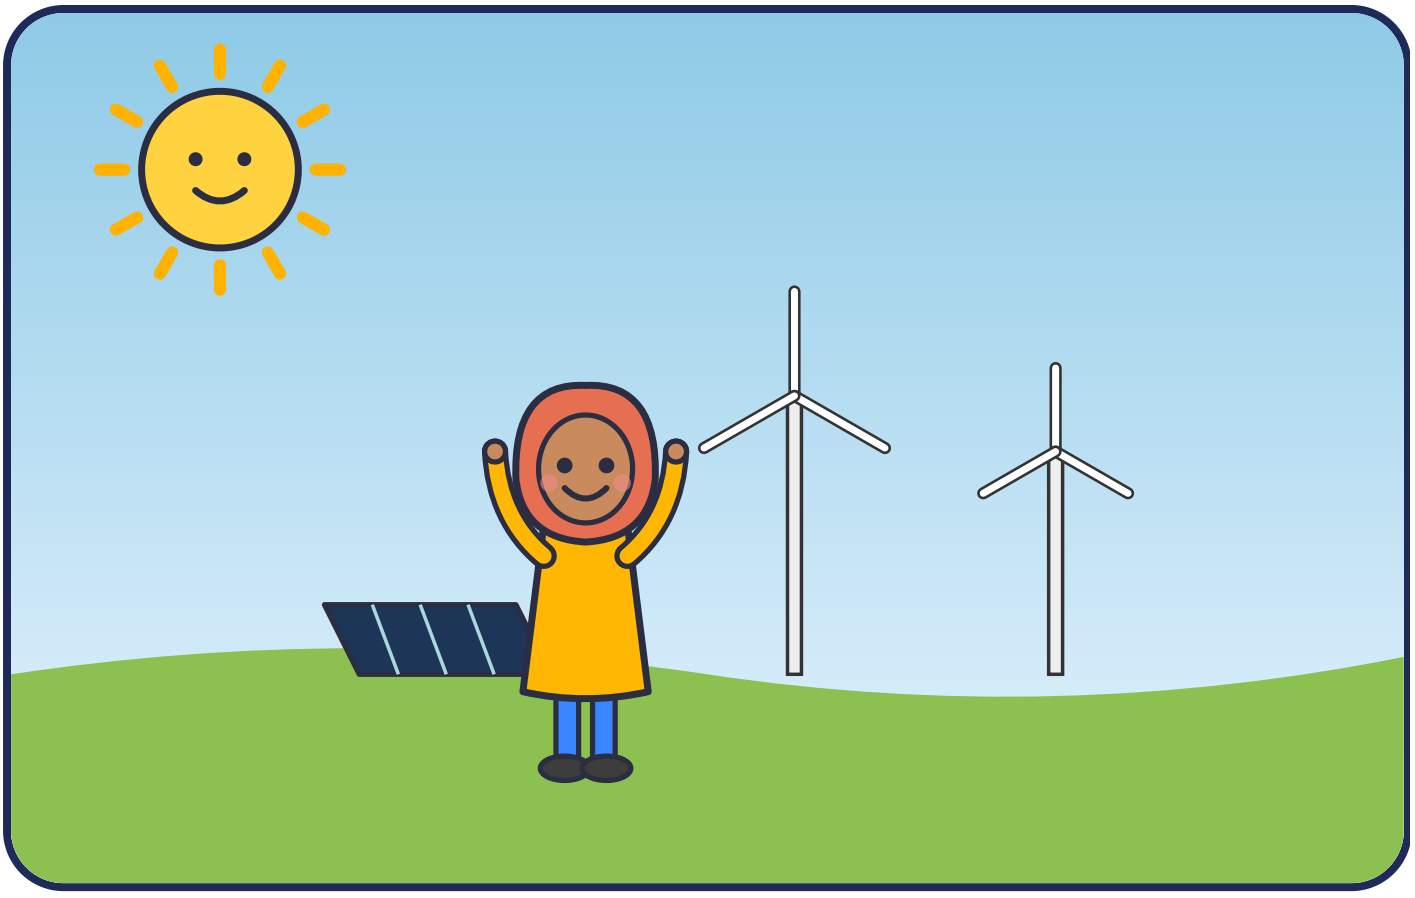

Then he **put** gold and silver on the table. "These are **common** **metals**. Gold is a **mineral**, too," he **explained**.

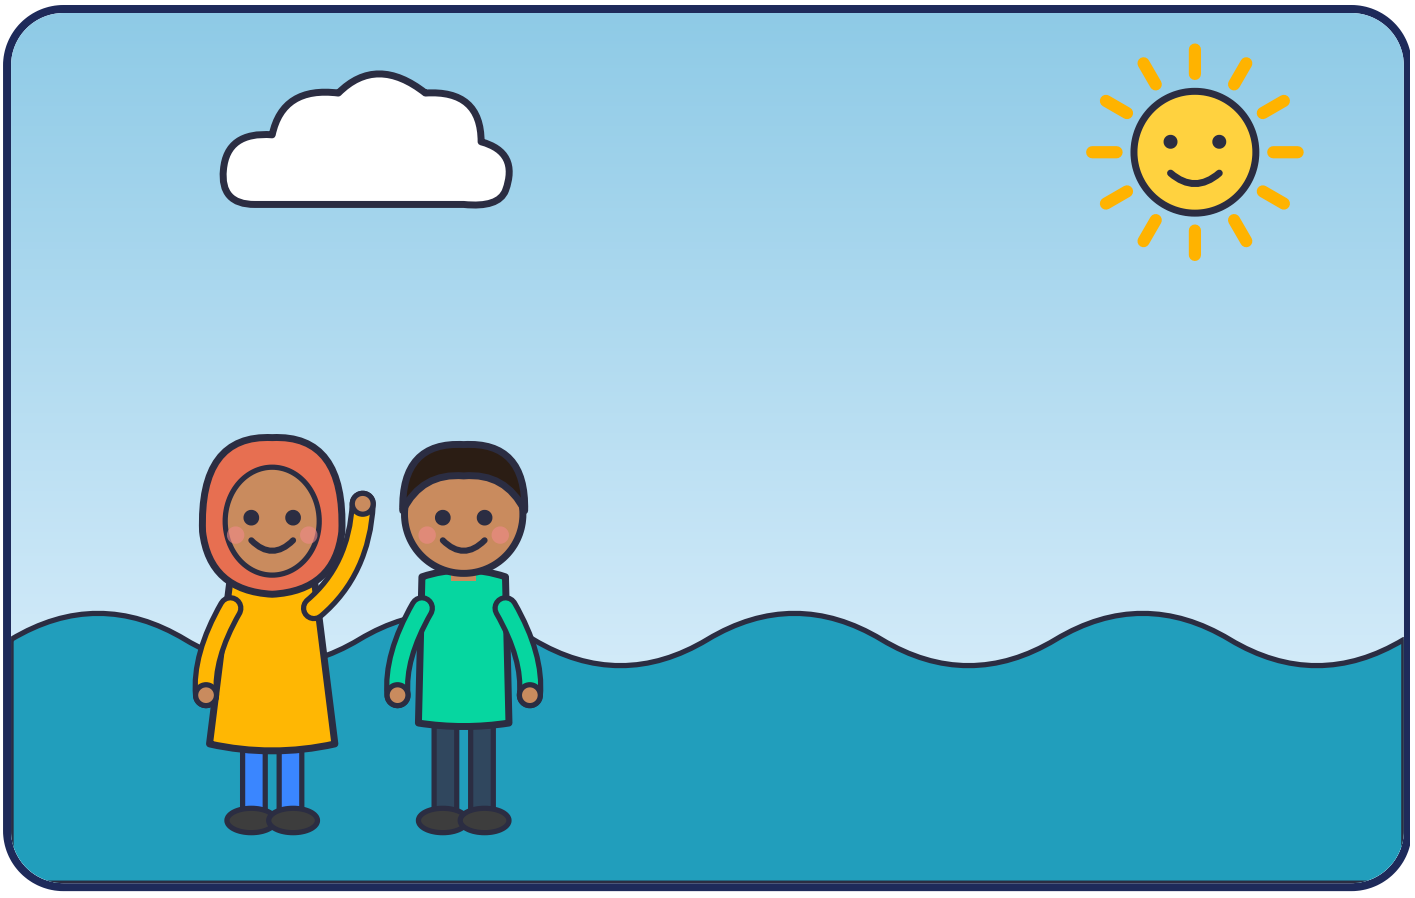

Nour **picked** up a **plastic** bottle. "Plastic is made from **petroleum**," Mr. Adel **said**. "Petroleum is one of the **fossil fuels**."

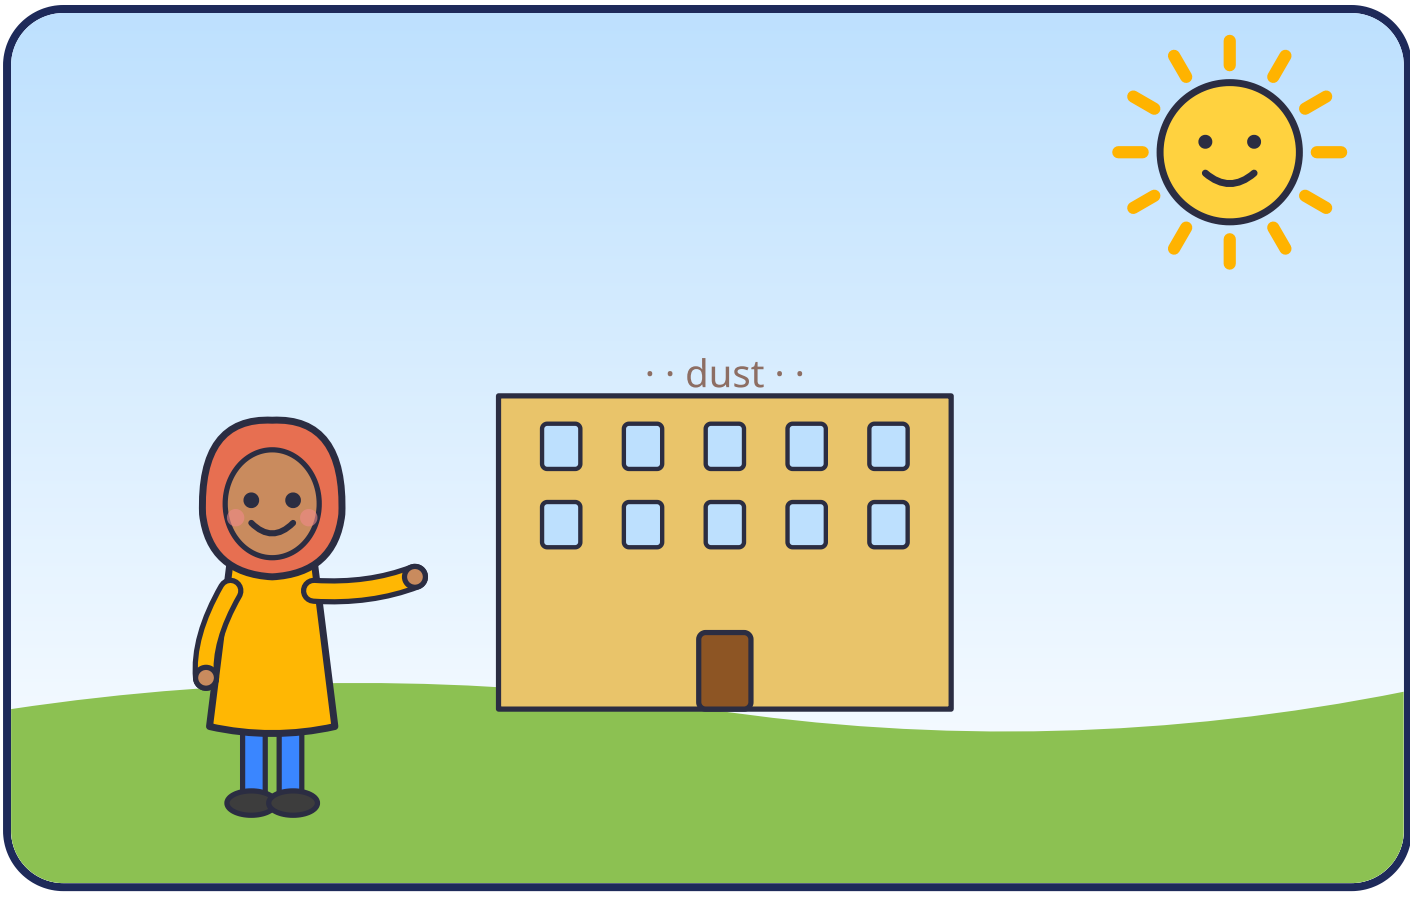

"Fossil fuels are **non-renewable resources**. One day they will **run out**," he **added**. Nour **felt** worried.

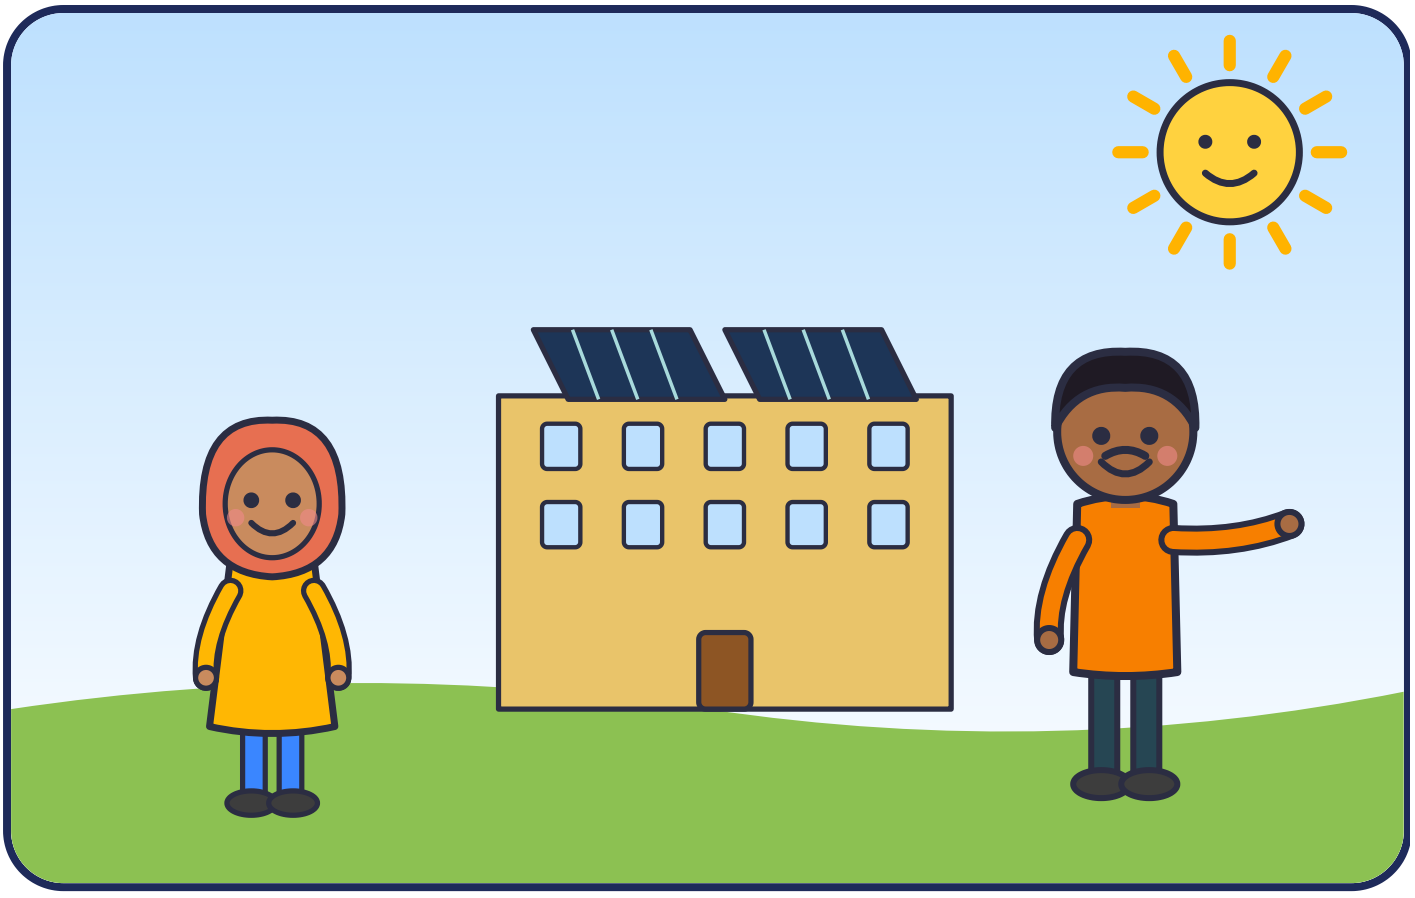

"But the sun and the wind are **renewable resources**. They never run out!" Mr. Adel **smiled**. He **showed** them **solar power** and **wind power**.

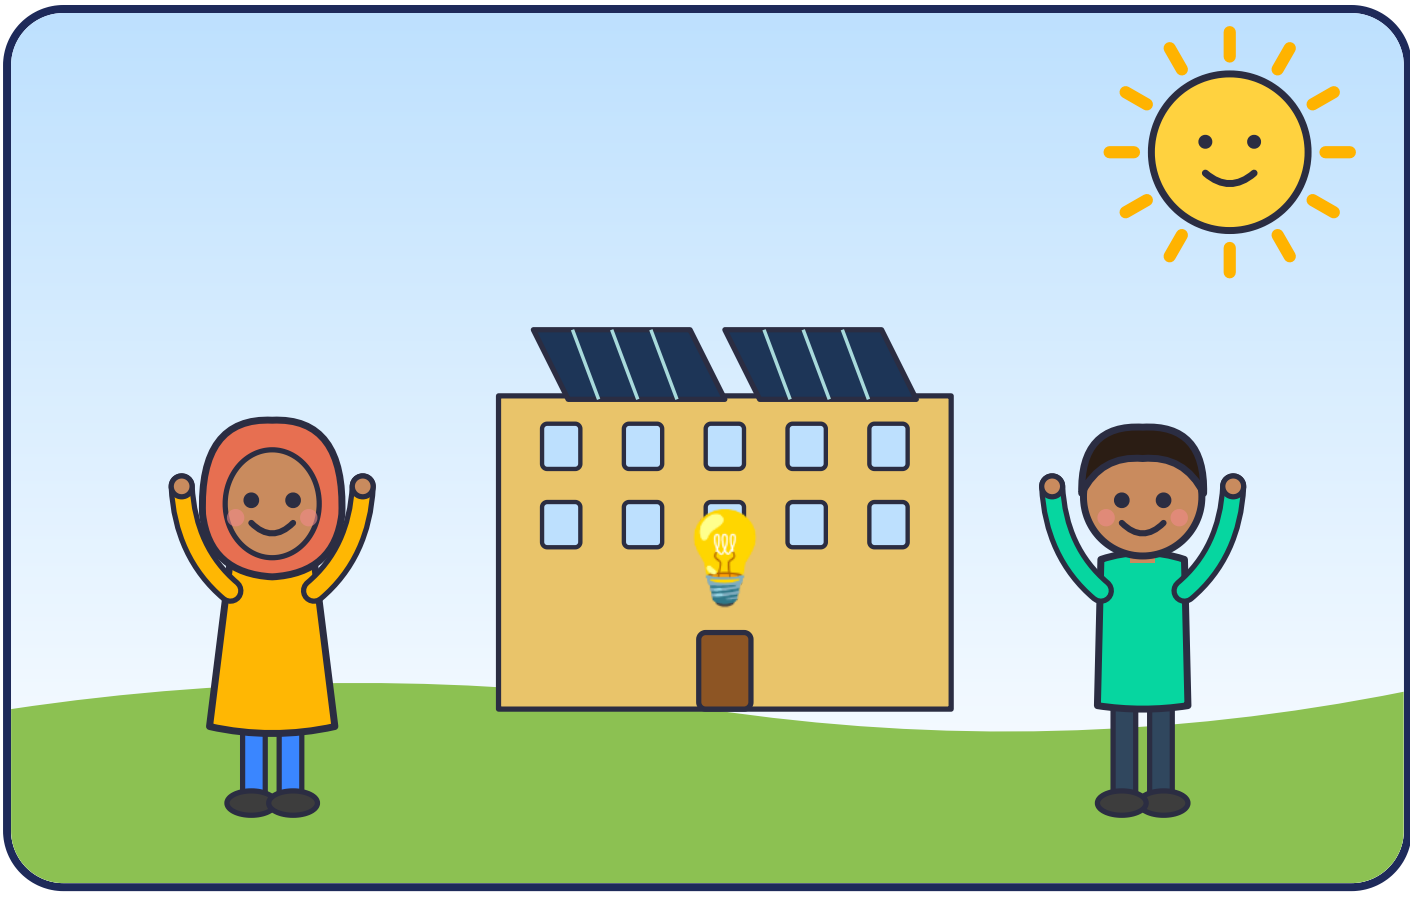

At the sea model, they **learned** about **wave power** and **tidal power**. The water **moved** up and down and **made** **energy**.

Back at school, Nour **looked** at the roof. It was very **dusty**. "Our school can use the sun to **make electricity**!" she **said**.

The pupils **collected** money and **met** the head teacher. Workers **replaced** the old roof and **put** new **solar panels** on it.

Now the panels **transferred** sunlight into electricity every day. The whole class **cheered**. "Clean **energy** for our school!" Nour **shouted**.

The End ☀️

Save natural resources and use clean, renewable energy.

حافظ على الموارد الطبيعية واستخدم الطاقة النظيفة المتجددة.
